

DIRECTOR OF CENTRAL INTELLIGENCE  
**Security Committee**

SECOM-D-654

24 September 1979

MEMORANDUM FOR: Deputy Director of Security/Policy  
and Management

FROM:

[redacted]  
Chief, Community Security Group

SUBJECT: CSG/SSC Roles

1. When the Community Security Group (CSG) was created by DCI direction in March 1978, he declared that the CSG would subsume the compartmentation security policy responsibilities heretofore exercised by the Special Security Center (SSC). It was also decreed that the positions associated with compartmentation security policy functions of the SSC were to be transferred to the CSG.

2. I believe that the only responsibilities transferred out of SSC were as stated above and that the CSG element was to be the security policy voice for the Community on the [redacted] and T-K systems.

3. I offer that the following responsibilities still are the province of the SSC:

a. Agency implementation voice for [redacted], TK,  
SI, [redacted] systems.

b. Maintain [redacted]

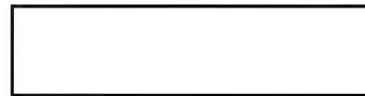

c. Support/oversee non-NFIB and Legislative Branch compartmented needs.

d. Accreditation of TK facilities and maintenance of register of codeword facilities.

e. TK foreign liaison security responsibilities.

f. Conduct of Zero-Based Clearance reviews in industry and CIA.

4. Obviously, if APEX flies, there will be some adjustment of SSC responsibilities, e.g., TK accreditations, dropping of separate systems, etc. However, we would not envision transfer of any of them to CSG.
